Republics Plan Union Of States On Centennial

The republics of Central America have formed plans to unite themselves under one government, beginning September 15, 1921, the centennial of their independence, according to the "Great Central American," according to the same newspaper.

The chief opposition to the plan is said to come from president Estrada Cabrera, of Guatemala, who is reported to have contended that the parts is composed entirely of reactionaries. A number of arrests have been made in this connection, and as a result the political situation in Guatemala is in a ferment, according to the paper.

YOUTHS GET SUSPENDED SENTENCES FOR THEFTS

Boy Mills and Charles McGowan, each about 22 years old, who came here a short time ago from Joplin, Mo., were found guilty on charges of the theft of a car by a jury in the 25th district court Tuesday afternoon. Each was sentenced to serve two years in the penitentiary, but the sentences were suspended.

The men at first pleaded not guilty, then changed their plea to guilty and admitted taking a suitcase and its contents from the Sheldon check room. The suitcase was owned by E. T. Gerard. One of the men was employed at the hotel as a bell boy. They also admitted taking a kodak from one of the rooms.

Boy Mills showed an army discharge, said he had been in France and claimed to have been wounded overseas. He said he needed the money for his sick mother. McGowan was not in the army, he said.

Your Income Taxes

Q. Kindly tell me what the income tax for 1917 covered, that is, I desire to know to what amount you were exempted. E. D.

A. If you were married and lived with your wife for husband or were the head of a family, you were entitled to a personal exemption of \$1000 plus \$200 for each dependent child under 18 for mentally or physically incapacitated, or self support. A head of family is a person who, in accordance with some moral or legal obligation, actually supports and maintains one or more individuals closely related to him or her by blood, marriage or adoption. If you were not married or did not live with husband (or wife) or were not the head of a family, you were entitled to a personal exemption of \$1000 only. These rulings governed the personal exemptions allowed for the year 1917.

FAT ENOUGH

A man weighing 150 pounds has fat enough in his body to make a dozen good sized candles. That's "fat enough." Too much fat or too little indicates a disordered physical condition. The average American has too little fat. He is gaunt and spare. Americans are known to the world as a nation of dyspeptics. That is the price they pay for a success which does not take time to eat properly. No man can be stronger than his stomach. The man with a "weak stomach" will be a weak man. When the stomach is "weak," the food is imperfectly digested and the body as a consequence, is insufficiently nourished. No fat can be put on the body until the nourishment derived from food exceeds the daily requirements of the body in wear and waste of tissue. When the stomach is "weak," the nutrition falls below the daily requirements of the body.

Dr. Pierce's Golden Medical Discovery acts directly on the stomach (and the nutritive and digestive system), removing obstructions to its activity and health, and enabling it to supply the body with the necessary nutrition. "Golden Medical Discovery" is not a cure-all. It is a medicine for the stomach and organs of digestion and nutrition. The "Discovery" increases the blood supply. It contains neither alcohol nor narcotics. Has been sold by druggists for over 50 years. Send 10c for trial package to Dr. Pierce's Invalids' Hotel, Buffalo, N. Y. Consultation by letter free.
